EDUCATION

Kalaignarkarunanidhi Institute of Technology – Coimbatore, India

2023 – 2027

B.Tech Artificial Intelligence & Data Science

Current CGPA: 7.0/10.0

Coursework: Machine Learning, Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Data Preprocessing, DevOps and Cloud Computing, Big Data Analytics, Natural Language Processing, Mobile Data Analysis, Wireless Communication

EXPERIENCE

AI & Data Science Training -Intern – Appin Technology – Coimbatore, India (Offline)

- Gained hands-on experience in machine learning workflows including data preprocessing, model building, and evaluation.
- Worked on practical AI projects to strengthen analytical thinking and real-world problem-solving skills.

Front-End Development Intern – Ether Infotech – Coimbatore, India (Offline)

- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Collaborated with development teams to design clean UI components and improve overall user experience.

PROJECTS

AI-Based Misinformation Propagation Analyzer | Python, Machine Learning, Network Analysis, Data Visualization

- Developed an AI-based system to analyze how misinformation spreads across online platforms using machine learning techniques.
- Identified factors influencing information propagation, including user behavior, influence, and sharing patterns.
- Modeled misinformation flow using graph-based network analysis and visualized propagation trends for interpretability.
- Provided analytical insights to support early detection and mitigation of fake news spread.

CareerMatch AI | Python, NLP, Machine Learning, Data Analysis

- Developed an AI-powered resume analysis system that extracts skills, education, and experience from PDF/DOCX/TXT resumes using NLP.
- Compared candidate profiles with job role requirements to calculate job compatibility and match percentage.
- Identified missing skills and recommended suitable job roles based on resume–job similarity analysis.
- Visualized candidate strengths, weaknesses, and skill distribution using interactive charts and analytics.

KubeGuard AI | Python, Kubernetes, Machine Learning, DevOps

- Developed an AI-based Kubernetes monitoring and self-healing system for cloud-native environments.
- Implemented anomaly detection using Isolation Forest to identify abnormal cluster behavior in real time.
- Automated recovery actions such as pod restart and deployment scaling to improve system reliability.
- Integrated Prometheus, Grafana, Docker, and GitHub Actions for monitoring, visualization, and CI/CD deployment.

TECHNICAL SKILLS

C	TypeScript	Git	Node.js	Fast API
Python	React.js	Github	SpringBoot	Postman,
Java	ML	JavaScript	DSA	MongoDB
SQL	NLP	Docker	OOPS	Data Analysis

CERTIFICATIONS & COURSES

NPTEL: Soft Skill Development
Coursera: Data Science, Machine Learning, Artificial Intelligence, Deep Learning
Juniper: Mist AI Associate, Open Learning Cloud Associate
RapidMiner: Data Engineering Master, Machine Learning
CISCO: Networking Essentials, Python Essentials 1 & 2, Cybersecurity Essentials, Applied AI, Modern AI and Data Science

COMPETITIVE PROGRAMMING

CodeChef: 3★ (Max Rating: 1633) | Current Rating: 1622 | Global Rank: 14,253 | Country Rank: 12,930 | Contests Participated: 62 | Problems Solved: 282+ | Languages: Java, Python

LeetCode: Solved 225+ problems with strong problem-solving skills in Data Structures and Algorithms.

Codeforces: Max Rating: 1086 | Problems Solved: 78+ | Active participant in rated contests and competitive programming challenges.

ACHIEVEMENTS

- Achieved 3★ rating (Max: 1633) on CodeChef with participation in 62 rated contests and solving 282+ coding problems.
- Secured Global Rank 258 in CodeChef Starters 236 (Rated) contest, demonstrating strong competitive programming and analytical skills.
- Solved 225+ problems on LeetCode focusing on DSA, algorithms, and optimization techniques.
- Built AI/ML and cloud-native projects in NLP, misinformation detection, Kubernetes monitoring, and self-healing systems.
- Completed multiple industry-recognized certifications in AI, Machine Learning, Data Science, Networking, and Cybersecurity.
